General Remarks and Stipulations**Situation**

Brick Kiln Plantation is situated on the east side of the A19 Doncaster Road between Bentley and Askern to the north of Doncaster.

Description

A block of mainly deciduous woodland principally sycamore and ash with smaller quantities of poplar and yew of interest to foresters, conservationists, investors and others.

The site stands at approximately 6m above sea level. The soils are clay loams over a clay subsoil. Stockbridge Beck runs along the eastern boundary of the site and is maintained by the Internal Drainage Board. Internal drainage ditches drain to this main drain. As can be seen from the plans there is a pond in the northern corner of the woodland.

Internally there are a number of rides.

It is believed the woodland was last thinned some 50 years ago. It would benefit from early thinning and a significant tonnage of hard wood logs could be produced.

Taxation

After 2 year's ownership the asset could attract 100% business property relief. If appropriate tax elections are made timber sales can be free of income tax and capital gains tax. Interested parties should seek their own tax advice.

Access

Access to the woodland is directly from the A19 opposite Doncaster Lodge.

As mentioned much of the eastern boundary is formed by Stockbridge Beck. The western boundary abuts the A19.
