Why do you need my address and card details?
We need to match your card and address details against each other to verify your identity and to protect us from theft and fraud. Some auctioneers use our secure online payment method which allows you to pay quickly and easily without sharing any of your financial information. We may also use your card to validate your purchase of a paid subscription.

Why do I need to verify my phone number?
We need to make sure we've got a working phone number for you, so that auctioneers can contact you about your purchase. This phone number will not be used for marketing, or be passed on to anyone else.
